Subject: CFAC phase 1 site characterization report

Sam – sorry for the delay.

CFAC has provided EPA with the draft of the Phase I “Data Summary Report” and Screening level Ecological Risk . We are in the process of reviewing the report. A copy is currently being made for the repository in the Columbia Falls Library, and CFAC is making it available electronically. Upon completion of our review we will use this information to help guide any changes necessary on the next phase of sampling.

EPA will be meeting with Columbia Falls City council on April 17th and joining the Community Liaison Panel public meeting on April 19th.

Mike-

CFAC has released the report. Would like to speak with someone at the EPA office to confirm and get some perspective, so please get a hold of me at the phone numbers listed below when you get this.

Thanks,
Sam
